Correct. Evaluate the function for each input, x, to find the output, $f(x)$.

$$f(0) = 2(0)^2 - 3 = 0 - 3 = -3$$

$$f(1) = 2(1)^2 - 3 = 2(1) - 3 = 2 - 3 = -1$$

$$f(3) = 2(3)^2 - 3 = 2(9) - 3 = 18 - 3 = 15$$
